Name and signature of the faculty member

TENSES

I. INTRODUCTION

The concept of tense in English is a method that we use to refer to time - past, present and future. Many languages use tense to talk about time. Other languages have no concept of tense at all, but of course they can still talk about time, using different methods. There are three major tenses in English. These include past, present, and future. Each of these tenses can explain an event that occurred in the past, an event that occurs in the present, or an event that will occur in the future.

II. METHODOLOGY

B.Naresh (22881A7309) – Gathered the data

A.Pranathi (22881A7302) – Designed the presentation

G.Prasanna (22881A7321) – Organized of the data

K.Sai Srividya (22881A7323) - Designed the presentation

M.Vishnu Vardhan (22881A7330) - Gathered the data

III. CONTENT

Tenses

1. Present tense
 - Simple present
 - Present continuous
 - Present perfect
 - Present perfect continuous
2. Past tense
 - Simple present
 - Present continuous
 - Present perfect
 - Present perfect continuous
3. Future tense
 - Simple present
 - Present continuous
 - Present perfect
 - Present perfect continuous

IV. CONCLUSION

Tenses are used in communication, both verbal and written, to indicate the time at which something happened. Improper usage of tenses could lead to confusion and misinterpretation of the sender's message. The tense, which is most appropriate to express the idea, should be used, else the statement/question would express something opposite to what you wanted to state or write. Correct use of tense will imply the use of correct form of verb with proper auxiliary.
